Explore, learn and enjoy

The programme is from Sunday to Saturday and has a minimum duration of 1 week.

Programme could include?

-  Intensive Spanish Course: 10 to 30 hours / week
-  Accommodation with host families (full or half board) or shared apartments
-  Cultural and activity programme
-  Transfer
-  Certificate

Academic classes

Learn, engage, have fun

Our classes are adapted to suit the age and level of the students.

Furthermore, we make sure that the group leaders can provide us with all the information we may need to organize the lessons and programme. In this way, we make sure that the programme exceeds our group's expectations.

We carry out activities both inside and outside the classroom so that students will be able to use

Spanish from the first day, naturally and having a good time while doing it.

We want our students to:

- Learn effectively
- Enjoy a memorable experience

Our goals are simple!

Extracurricular activities

Let students have the best time of their lives!

We want our students to enjoy their journey! That's why we organize a broad programme of social activities and excursions that enables students to practise their Spanish and allow them to get to know the life and culture of the country. And best of all, we adapt to our group's needs, so we provide a 100% personalized programme.

The students will do all the activities together with a Proyecto Español teacher or staff member, so they will be accompanied and supervised all the time. We plan all our activities in order to make them enjoyable, pleasant and –of course– meaningful!

We organize, for example, cinema evenings, cooking courses, visits to the monuments and typical places of the area, dancing classes, yoga trainings, visits to museums and exhibitions, visit to companies and many more!

Our target is simple:

To combine Spanish language teaching with experiences that go beyond the classroom, to achieve total immersion in the history, culture and social life in Spain.

All this at favourable prices!

We want to make our group's stays unforgettable!

Accommodation

Welcoming and experienced host families

The perfect choice if students want to have an authentic experience

We work with welcoming and friendly host families who truly enjoy sharing life with international students.

The families we work will take our students into the family as if they were there own, in this way we guarantee the best stay possible!

Students can choose between full board which includes all the meals

or half pension which includes the following: breakfast and lunch or breakfast and dinner.

The first day of class, our host families accompany the students to the school, so that they can know how to get there easily. All of them live in the city centre, 15-20 minutes walking from the school.

What can students expect from the host family?

- The regular hours for lunch and dinner are around 2:00pm and 9:00pm respectively. Families normally go to bed around 11:00pm – 12:00am.
- The purpose of living with a host family is immersion into the Spanish language and Hispanic culture. Students will discover how families in Spain live and behave!
- Students can ask their host families to wash their clothes twice a week (normally one for whites and one for colours).

Shared apartments

For the independent students

For students who want more independence, we recommend this option

All the apartments are completely furnished, so that the moment they arrive in their new place, they will have

everything they need already there, apart from groceries of course. We rent bed sheets and towels at the school!

Hotel stay

For group comfort

If groups prefer to stay in a hotel or hostel, we can recommend the best places in town.

We want to make our group's stays unforgettable! Don't hesitate to ask our team for all the possibilities!

Granada: unique and monumental

Granada, situated in the South of Spain in Andalusia, is one of the most beautiful cities full of interesting monuments, including the most visited attraction in Spain, the “Palace of the Alhambra”. Remnants dating back to the time of the last Arab kingdom can be found throughout the city.

Granada is a university town with a pleasant nightlife and countless pubs in the old centre, birthplace of the famous Spanish “tapeo” (tapas bar crawl). Antonio Machado, Spanish poet, said once: “All cities have their charm, Granada theirs and all others”.

Alicante: the city of light

Alicante is located in the south-east of the Iberian Peninsula, directly on the Costa Blanca. The Romans named the city “Lucentum”, city of light, and captured the character of this radiant palm-lined city facing the Mediterranean sea.

The population of Alicante is about 330.000 inhabitants, but is a city in which almost everything is within walking distance and where acquaintances often cross paths. It is safe, alive and easy to get around. Students would love to visit the city more than once!
